'WHERE DREAMS ARE CODED INTO REALITY'

DEAR TEACHERS & STUDENTS,

With utmost pride and joy, we are thrilled to announce the 1st Edition of our very own, Codessey, to commence on the 22nd November of 2023.

Codessey is a 1-day summit hosted by P. S. Senior Secondary School where various programmes related to coding take place.

It would be our greatest honor to have students of your esteemed institution participate in Codessey, and make this summit a tremendous success. We cordially invite students from class 9 to 12 of your school to take part enthusiastically in this congregation.

We are delighted to unveil the 3 events constituting this summit :-

- **BINARY BLITZ**, a coding competition where you will be tested on your prowess to code on a variety of problems in Round 1, and your mathematical modelling skills in Round 2.
- **ALGORHYTHM**, where you can test your skills in problem-solving amongst a group trying to alter the course of the program, enabling you to think on your feet.
- **CODEFUSION**, a place where you can test your application designing and presenting skills on real world applications.

Regular updates and more details can be found @psseniorefficial on Instagram.

We eagerly await your school's wholehearted participation towards ensuring this summit's success.

With regards,  
Yours faithfully,  
The Organizing Committee
